

Portable Pressurized and On-Site Eyewashes

On-Site Heater Jacket Retrofit Kit

- S19-921HR (pedestal not included)**
- Protects against freezing down to -20°F (-29°C)
- Insulated heater jacket conceals a 121-watt heater
- Secondary thermostat prevents overheating if primary thermostat fails
- All UL-listed components; requires 120-volt AC

On-Site Waste Cart

- S19-399**
- High-visibility yellow
- Captures used fluid; 56-gallon capacity
- Tapered sump, easy to drain

Heater Jacket Retrofit Kits for Portable Pressurized Eyewash Tanks

- Thermostatically controls water in weather conditions down to -10°F (-23°C); uses standard 120 VAC. Tanks not included
- S19-671HR (shown at right)**
Heater jacket retrofit kit for 5-gallon tank
 - S19-690HR (shown at left)**
Heater jacket retrofit kit for 10-gallon tank
 - S19-788HR (shown at center)**
Heater jacket retrofit kit for 15-gallon tank

Transport Cart for Pressurized Eyewash Tanks

- S19-690A**
- Four-wheel stainless steel transport cart. For use with eyewash tanks without heater jackets (eyewash tanks not included)

Drench Hose Spray Kits

- S19-430EH**
- Drench hose spray kit with valve, drench hose sprayhead, hose, inspection tag and hardware. For use with eyewashes; provides a body water drench

- S19-430SH**
- Drench hose spray kit with valve, drench hose sprayhead, hose, inspection tag and hardware. For use with drench showers; provides a body water drench

- [Bradley S19-210HFP5 Emergency Eyewash Station Frost Proof](#)
- [Bradley S19-210HFP6 Emergency Eyewash Station Frost Proof](#)

Flow Switch Alarm Systems

- Automatic, audible and visual alarm system
- Activates when unit is in use; preassembled
- Basic alarm meets NEMA 3 code (waterproof)
- Requires minimum of 2 GPM water flow to activate
- 1¼" NPT inlet piping

Standard Alarms for Drench Showers or Combination Units

- S19-320**
Shower/combination alarm with 6' cord (120 volt)
- S19-320B**
Shower/combination alarm with 6' cord and 120/24V AC transformer
- S19-320C**
Shower/combination alarm with 12' cord (120 volt)
- S19-320E**
Shower/combination alarm with 12' cord and 120/24V AC transformer

Explosion-Proof Class 1 Division 1 Alarm Systems

- S19-320EXP1A**
Shower/combination alarm (120 volt) rated Class 1; Division 1; Groups C and D explosion proof
- S19-320EXP1B**
Shower/combination alarm (220 volt) rated Class 1; Division 1; Groups C and D explosion proof

Explosion-Proof Class 1 Division 2 Alarm Systems

- S19-320EXP120**
Shower/combination alarm (120 volt) rated Class 1; Division 2; Groups B, C, and D explosion proof
- S19-320EXP220**
Shower/combination alarm (220 volt) rated Class 1; Division 2; Groups B, C, and D explosion proof

Alarms for Eye or Eye/Face Washes

- S19-320A**
½" NPT with 6' cord
- S19-320D**
½" NPT with 12' cord

Shower Accessories

Privacy Curtain

- **S19-330**
- Provides privacy to shower user in emergency situations
 - Universal mounting
 - 3-ply, vinyl laminate, curtain reinforced at top and bottom
 - Chemical and mildew resistant; waterproof
 - High-visibility yellow color
 - Dimensions: 70"L x 145"W
 - Stainless steel, corrosion resistant curtain rail and mounting brackets
 - Rail dimensions: 1½" x 42" diameter
 - Not compatible with barrier-free, PVC and heat trace units – contact Bradley for more information

Drench Shower Tester

- **S19-330ST**
- Heavy-duty tester for required weekly activation
 - Watertight funnel with weighted bottom
 - 84" long with 8' telescoping aluminum handle
 - Includes testing record card

Classic Accessories

Retrofit Classic Dust Covers

- **S45-1964**
- For use with any Bradley plastic eyewash bowl. Plastic bowl, dust cover, gasket and hardware

- **S45-2396**
- For use with any Bradley eyewash bowl. Stainless steel "clam shell" cover and bowl, stainless steel handle, tether and quick release pin
